**Slides from presentation:**

## Recycling CA Lottery Scratchers by Fred V.

### Recycling CA Lottery Scratchers

Some buy scratchers to win & not to play (see sample picture on next slide)

1. if you notice, the code on lower left was scratched to reveal code to be scanned & check if a winning card or not, few people discard this if it's not a winning card.
2. you can enter for a 2nd Chance to win a prize either manually by entering codes at "calottery.com/2ndChance" or scan using a calottery app in your smart phone then scan to automatically enter the code.
3. you can visit groceries 'kiosk', liquor store or gas station that sells this to get scratchers from bin, etc. to recycle at your advantage.
