

Every Day Carry

What's in your Pocket/Purse ?

Every Day Carry

There is nothing worse than standing in line waiting for someone to fumble around inside pockets or purse to find a wallet and then fumble around the wallet to find money or cards. Also there are times when the need may arise to find some item in your pockets that may help you or someone else in times of stress.

To combat this global phenomenon of fumble fingers and disorganization, a system of organization was developed. EDC Credit for EDC system is given to Amelia Acker and Daniel Carter.

There is no exact system, because no two people have the same needs.

Every Day Carry

The basic principle is to standardize what you must have on your person on a daily basis. There can be variables due to clothes and seasons

Example: Credit/Debit Cards, ID Card, Medical Card, Merchant Cards and Loyalty Cards

Other Items: Flashlights, Pen & Paper, Pocket Knives, Multitool, Cellular Phones, Earphones, Car Keys

Once you have standardize your items, then you must place then in the same location - pocket or purse, so you do not have think about the location

Every Day Carry

One of the main sub category is “Minimalism”. Carry the smallest (size) and as few as possible

My standard dress is cargo shorts or pants. For dress ironed cargo shorts and pants (with crease). In my case:

Left Front (Cargo) Wallet - Left (reg) Cellphone

Right Front (Cargo) Pen, Flashlight & Pocket Knife - Right (reg) Earphones

Right Rear - Micro Notebook. Left Rear - Car Fob

Every Day Carry
