If you're looking for some fun websites you've come to the right place. We've got you covered to keep boredom at bay.

### TV Garden ([tvgarden.garden](https://tvgarden.garden))

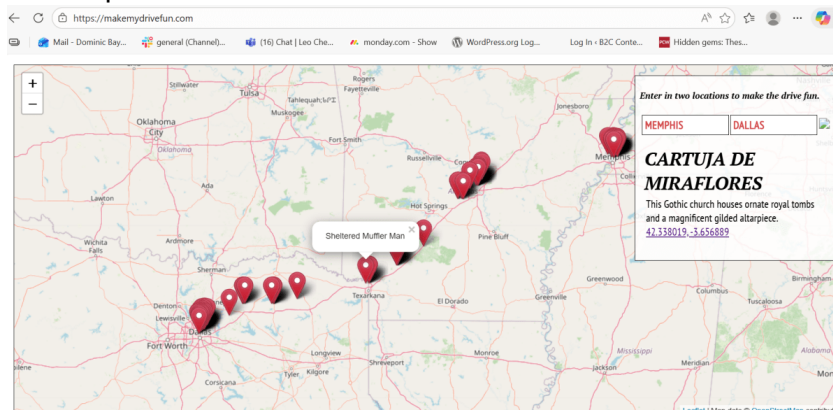

If you go to the [TV Garden](#) site you can choose a country from the world map by clicking on it and then get free TV channels from that location. There are tens of countries to try and dozens of channels available to watch. I found a really great news channel from the US that does

round-the-clock news, but there's also entertainment content available too.

### Make my drive fun ([makemydrivefun.com](https://makemydrivefun.com))

If you've ever planned a long road trip but not sure what sights you can see along the way, then you're going to love this website. [Make my drive fun](#), lets you plan a road trip and shows you fun stops along the way. No matter whether you want to stop at a museum or just gawk at oversized novelty landmarks this website has you covered on your next long road trip.
